CHILDREN'S SERVICES LISTINGS

How Can I Access Occupational Therapy?

1. Anyone can see a private practice OT!
2. You may see an OT without insurance or a doctor's prescription.
3. Most private practice OTs accept self-referrals, or referrals from family, school, or other health professionals. Contact the individual company regarding their referral process.

How do I find an Occupational Therapist?

1. Read through the directory and search for a private practice OT that fits your needs (businesses listed in alphabetical order).
2. Press "Ctrl + F" and type the issue or support you are seeking help for. A box will appear on the top right corner. Type your search term and then use the arrows (up or down) to scroll through the document and find OTs that provide service for that area.
3. Open "Bookmark" icon (). Click on the Bookmark link to go directly to that page.
4. Need more help? Contact the MSOT office for additional support (msot@msot.mb.ca or 204-957-1214, ext. 21).
5. Please reach out to the individual OT companies with any specific questions about the services provided.

Will my extended health benefits cover the costs of private Occupational Therapy?

1. Find out if your extended health benefits plan includes coverage for Occupational Therapy. If OT is not covered ... ASK FOR IT!! (Sample letter templates at: <http://www.msot.mb.ca/finding-ot-services/>).
2. Ask your doctor for a prescription if your private insurance requires one.
